Experience

Inspira Financial, Senior Product Designer

Jun 2024 — Present

- Led design on the mobile app rebuild, taking a 2018 app from 2.7 to 4.3 stars (39K ratings).
- The CEO credited the new app as essential to securing key partners and clients.
- Cut claims to a photo-first flow and integrated OCR with AI auto-fill capabilities.
- Cut onboarding from 15 fields to 4 and reduced time to complete by 32%.
- Prototyped claims in Claude Code with OCR auto-fill, which helped start a design engineer track.

Nuvative, Product Designer

Jun 2023 — Jun 2024

- Only designer on Infange Workspace, a B2B meeting tool that became the company's default.
- Used weekly Mouseflow data to decide what to change next.

Capgemini, UX Designer

Jan 2022 — Mar 2023

- Designed client homepages and contributed to a shared design system.
- Ran usability tests with 20+ participants that shaped the homepage redesign.

Project Experience

Runo, Running App (iOS)

Personal Project

- Designing and building it solo in Swift, with HealthKit, Strava, and an AI coach.

Goald, Gamified HSA

Hackathon Project

- Concept that rewards HSA members for contributing and investing. Built in Claude Code.

Education

Wichita State University, B.S. Computer Engineering

Useful School - Advanced Product Design
